## COMPASSIONATE CARE FUND AT-A-GLANCE

**14,382 miles**

covered with transportation grants so patients can receive the care they need.

**57**

patients who were able to receive the transportation they needed to get to their lifesaving treatments.

**\$7,000**

to help patients with medical equipment and lifesaving nutrition support needed to continue healing outside of the hospital.

**77**

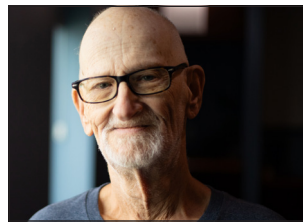

Guardian Angel Grants assisting patients with barriers to living well and healing well.

*\*Fiscal year 2024 (October 1, 2023 - Present).*

## Join us in making a lasting impact during the Health First Foundation's Day of Giving on Friday, September 27, 2024.

In Brevard County, nearly 80,000 neighbors between 18 and 65 find themselves caught in the coverage gap—earning too much to qualify for Medicaid, yet unable to afford essential medical care. As healthcare costs continue to rise, so does the burden on these individuals. Our Compassionate Care Fund, supported by Guardian Angel Grants, is more vital than ever. These grants provide crucial assistance so our neighbors can access the care they need to heal and live well. Together, we can bridge this gap and bring hope to those who need it most.

## Guardian Angel Grant recipients.

Keith

Fred

Michelle

**Guardian Angel Grants make it possible for our neighbors facing both health and financial difficulties to focus on healing and living well.** People like Keith, who was able to keep his daily radiation treatments for prostate cancer with help covering the cost of transportation. Or Fred, who didn't have to worry about limited resources when his wife was admitted to hospice care - he was able to be with her when it mattered most. Or Michelle, whose independence was restored with a motorized wheelchair - a tool that was previously unaffordable. With Guardian Angel Grants, these neighbors have found wellness within reach.

# Sponsorship levels.
